

Aluminium Bending Machine

DBX-A130

Features:

- ◆ Classic Design, Simple Structure
- ◆ Component Matching, Abandoning Unsafe Factors
- ◆ Multi- Tooth Milling Multi- Angle Precision Cutting
- ◆ Specialized CNC based Aluminium Flat Strip, Trim Cap & Profile Bending Machine for most accurate Channel letters making - need for LED Signs!

Technical Parameter

Working Principle	Auto Feed, Auto Slot, Auto Bend
Applied Material	Aluminium Flat, Aluminium Edge, Aluminium Profile
Material Height	<130 mm
Material Thickness	0.4 - 1.2 mm
Slot Degree	45° - 135° Degree
Slot Type	Double Size Swing Slotting
Voltage	220 V
Control Type	Computer Motion Control Card
Total Power	1500 W
File Format	DFX, PLT (Corel Draw)
Machine Size	1350 x 620 x 1300 mm
Package Size	1450 x 760 x 1500 mm
